MIAMI (CBSMiami) – A two-story penthouse, situated just off Miami Beach and Sunset Harbor, greets you with a grand entrance. The Grand Venetian penthouse, with its floor-to-ceiling windows, offers stunning water views.

"It's actually two penthouses that were combined to form one penthouse. It's almost 6,500 square feet so it's really like a [home](#) in the sky," said Coldwell Banker Realtor Danny Hertzberg.

The penthouse, which was completely gutted, was finished with attention to every single detail, said realtor Hillary Hertzberg. She said the penthouse has, "Floor-to-ceiling windows everywhere so there's a real flow through, which is really unique."

CBS4's Lisa Petrillo toured the penthouse with brother and sister realtors Danny and Hillary Hertzberg, whose [mother](#), Jill, is half of the acclaimed realtor team known as, "The Jills."

Petrillo's guides pointed out one unique aspect of the home—there are two of everything.

"This is more of a kitchen and [family](#) area," said Hillary Hertzberg, pointing out one side of the home. "There is incredible art on the walls with Venetian plaster. You can take your elevator upstairs or use the stair from the other side."

Upstairs a bedroom has been converted into a Pilates studio. There are two master suites; the main one with oak floors is open and spacious, the modern white custom bath by Boffi comes with a smart toilet.

"Both masters have their own breakfast [kitchen](#) as well," Hillary Hertzberg said.

To go back down, jump on the pneumatic elevator.

At 10 Venetian Way, at the Grand Venetian, two becomes one—one terrific sky-high escape.

The penthouse could be yours for the newly reduced price of \$10.5 million.
